If you don't have these banners, you may want to consider rolling again.But still, I would probably only recommend it to players who are planning to enter the competitive scene of Honkai Impact 3rd.Completing Starter EventsStarter Events are a series of events or missions available only to new players. You can also try to complete the remaining steps, but this means you will need to speed up your leveling, which is not recommended. Find a Sensei: Having a sensei will unlock Sensei Missions. Stamina Usage Priority GuideOnce again, filling the resistance bar reduces the resistance buildup rate. I recommend that you complete at least all Phase 7 missions. Join an Armada: A Level V Maximum Armada is a recommended Armada that you should join. Honkai Impact 3rd is one of the best gacha games I have ever played. Each of these events offers great rewards to the completion of each mission. Instead of focusing on raising your level, focus on upgrading your Valkyrie level. Scream lmy for this list. A large number of Valkyrie fragments for Swallowtail Phantasm, Yamabuki Armor, Divine Prayer, Flame Sakitama and Darkbolt Jonin are awarded by the supply. Tickets can then be used to collect rewards from the offer. LTOs bonusesIf you are willing to spend a certain amount of money, then you will surely be able to get more impressive rewards by unlocking these benefits via a add-on.Growth Supply Missions Tab6. I suggest you take Magstorm, since you'll need it for your Herrscher of Thunder. This is a great place to get easy forging materials; however, I would just suggest you spend the extra strength here. Shipments: The Missions Shipping rewards specific fragments of Valkyria. Events: The Events tab is composed of time events that offer a variety of awards. History / Chronicles: these are the best sources of crystals, so if you have reserve resistances don't e Ät Ät to clear the stages from the Story/Chronicles missions. In addition, most Starter Events require you to complete a certain chapter of the story, so you have to spend time deleting the history missions to get those rewards. Because of this, most beginners tend to invest in the wrong valkyries and equipment, spend their resistance inefficiently, waste money and other resources in the game and, worse still, abandon the game. In addition, a guaranteed valkyrie type A is provided free of charge.Level-Up Sprint Rewards3. The rewards you get from Stage 1-7 are a must-have. Finding a sensei should be easy, so you don't have to worry. For beginners, completing at least 2 Night Missions and 2 Accipiter Valkyrie Missions per day. But if you can't get Herrscher of Thunder, then use it to get Florid Sakura.Tuta Darkbolt Jonin free after 7 daysThis event will give you just fantastic daily prizes. Don't worry, follow this guide and learn how to play the game effectively.For those who don't know whatÄ` rerolling, generally, rerolling Ä` the term used to create a new account in order to obtain exceptional starting characters in initial draw. Starter Events Missions: These missions refer to the missions of Path to Greatness and Growth Supply, so if you are a new player you should spend some time on that as well. Be sure to grab these rewards by completing the required missions before these events expire. You can also get a 4-star blade by completing Phase 7 of this event. Also, you will have to delete some chapters of the story to unlock the Path of Greatness rewards. Although thereÄ` still much to know about the game, the tips here should be enough for beginners. If Maximizing your valkyrie capabilities especially during the final match, then a good practice would be to avoid unlocking/updating switch skills. However, if Ä` it is difficult to get a decent valkyry of class S or A even after rerolling, then settle with your that should be fine. Open World: The activities Open World Adventure requires considerable resilience, so be sure to complete all 5 activities Adventure before the deadline. Don't worry, we'll give you a priority list` to spend your stamina to guide you on how to use your stamina efficiently.LTO Bonus Rewards (Most rewards already claim) 5. Do not forget to check the priority list expenditure for endurance to guide you on which missions to complete to efficiently get 150 tasks. Valkyrie Farming GuideIf you are an F2P player, then this would be a great guide for you. Growth SupplyThis Ä` another startup event that Ä` probably one of the best events to get fantastic fragments of Valkyria, increase stigmata of the cores, forge materials and diamonds. The skills switching methods tend to decrease the synergy of your valkyrie stigmata. Most of the time, events do not need resistance. However, you will need to make sure you spend your stamina wisely considering the amount. Limited resistance available. Don't worry about Ä`, we also made a list to guide new Honkai Impact 3rd players in use their stamina. Once you are in Armada make sure you stay active and contribute to the Armada Missions. In any case, you will still a lot of possibilities to draw from the supplies with all the rewards available for new players. Use your Valkyrie eggs only during last game Don't let your resistance overflow: if you let your endurance reach its maximum, endurance slow down. Therefore, getting all the rewards from the 1Äe Äe 4 phases of Growth Supply will help you definitely progress throughout the game getting updated valkyries.Missions Priority daily to reach 150 DutyKnowing which mission to start from can be very confusing, especially for new players. In fact, I struggled a lot when I started playing. In fact, finishing events for beginners or new players should give you some decent Valkyrie that will help you Progress throughout the game.
